Hill Park South Dock Repair

The south dock at Hill Park has served our community well, but a key section has reached the end of its use. The original 60' section of the south dock at Hill Park was built about 30 years ago by community volunteers and is in need of repairs. The dock was officially closed on May 27, 2009 due to deteriorated pier caps that support the first 60' of the structure.

The details of the repairs to the dock are being worked out, and through a coordinated effort between the City, the Sportsman's Club, and other volunteers, the dock should be reopened soon. We will be coordinating a volunteer project to make the needed repairs as soon as possible.

If you wish to be involved in the repairs to the dock, please call the Parks Department at 360-563-2633, and leave your name and phone number so we can contact you as soon as a date for the event is scheduled. We apologize for any inconvenience this may have caused.
